FEDERAL COMMUNICATIONS COMMISSION  
 OFFICE OF THE SECRETARY

To: Office of the Secretary  
 Attn: Assistant Chief, Audio Division  
 Media Bureau

**PETITION FOR RULE MAKING**

Clear Channel Broadcasting Licenses, Inc. ("Clear Channel"), licensee of WJER-FM, Dover, Ohio, by its counsel, hereby submits this Petition for Rule Making, which proposes to delete Channel 269A at Dover, Ohio and allot Channel 269A at North Canton, Ohio as that community's first local service. If this Petition is granted, Clear Channel will file an application for Channel 269A at North Canton and construct the facilities as authorized. The following table summarizes the changes requested in this Petition:

City	Channel	
	Existing	Proposed
Dover, Ohio	269A	--
North Canton, Ohio	---	269A

**I. Technical Analysis**

1. As demonstrated in the Technical Exhibit, Channel 269A can be allotted to North Canton at coordinates 40-48-30 North Latitude, 81-23-31 West Longitude consistent with Section 73.207 of the Commission's Rules with respect to all existing and proposed domestic allotments and facilities. See Figure 1. A 70 dBu signal can be provided to North Canton from

No. of Copies rec'd 24  
 List ABCDE  
MB 24-  
0463

the proposed reference coordinates. See Figure 4. The relocation of WJER-FM from Dover to North Canton will result in a predicted net gain in population of 306,944 persons within the WJER-FM 60 dBu contour. See Technical Narrative. The entire loss area will continue to receive at least 5 other aural services and will thus remain well served. See Figures 2 & 3. In addition, the relocation of WJER-FM to North Canton will entirely eliminate the preexisting short spacing with WNKO (Channel 269A), Newark, Ohio. See Technical Narrative.

## **II. Change in Community of License**

2. Clear Channel desires to change the community of license of WJER-FM from Dover to North Canton under the guidelines set forth in *Amendment of the Commission's Rules Regarding Modification of FM and TV Authorizations to Specify a New Community of License*, 4 FCC Rcd 4870 (1989), *recons. granted in part*, 5 FCC Rcd 7094 (1990). There, the Commission stated that a station may change its community of license without subjecting the license to other expressions of interest if (1) the proposed allotment is mutually exclusive with the current allotment; (2) the current community of license will not be deprived of its only local service; and (3) the proposed arrangement of allotments is preferred under the Commission's allotment priorities. These criteria are met here. First, the proposed use of Channel 269A at North Canton is mutually exclusive with the current use of Channel 269A at Dover. See Figure 1. Second, Dover will not be deprived of its only local service because it will continue to be served by Station WJER(AM).<sup>1</sup> Third, the provision of a first local service at North Canton (2000 U.S. Census population 16,381) under Priority 3 will result in a preferential arrangement of allotments

---

<sup>1</sup> Station WJER(AM) is operated pursuant to a "dual-city" license, and is licensed to Dover, Ohio and New Philadelphia, Ohio. Clear Channel is the licensee of WJER(AM), and currently provides local service to Dover and New Philadelphia. The Commission should consider deleting New Philadelphia from WJER(AM)'s dual-city license. In this regard, New Philadelphia is served by Stations WKRJ(FM) and WNPQ(FM), while Dover has no other local service. Therefore, there is no reason to continue requiring WJER(AM) to serve New Philadelphia as well as Dover.

over the retention of a second local service at Dover (2000 U.S. Census population 12,210) under Priority 4. *See Revision of FM Assignment Policies and Procedures*, 90 FCC 2d 88 (1982).

3. North Canton is located in the Canton, Ohio Urbanized Area. Therefore, this relocation implicates the Commission's policy regarding the migration of stations into urban areas. *See Headland, Alabama and Chattahoochee, Florida*, 10 FCC Rcd 10352 (1995) ("*Headland*"); *Faye and Richard Tuck*, 3 FCC Rcd 5374 (1988) ("*Tuck*"). In making the determination whether to award an urbanized community a first local service preference, the Commission will consider (1) the extent to which the station will provide service to the entire Urbanized Area, (2) the relative populations and proximity of the suburban and central city, and, most importantly, (3) the independence of the suburban community. *Tuck*, 3 FCC Rcd at 5377-78. In this case, from the proposed transmitter site, WJER-FM would place a 70 dBu contour over 100% of the Canton Urbanized Area. North Canton's population (2000 U.S. Census 16,381) is 20.3% of that of Canton (2000 U.S. Census 80,806), and North Canton is located 8.8 kilometers from Canton. These figures are similar to those of other suburban communities granted a first local preference. *See, e.g., Old Fort, Fletcher, and Asheville, North Carolina; Surgoinsville, Tennessee, and Augusta, Georgia*, 18 FCC Rcd 12181 (2003) (Fletcher's population is 6.7% of that of Asheville, and Fletcher is located 17 kilometers from Asheville); *Malvern and Bryant, Arkansas*, 14 FCC Rcd 3576 (1999) (Bryant's population is 3% of that of Little Rock, and Bryant is located 20 miles from Little Rock). Nevertheless, the Commission has repeatedly stated that these factors are less important than evidence of independence. *See Headland*, 10 FCC Rcd at 10355. The following analysis of the eight *Tuck* factors demonstrates the independence of North Canton from Canton.

(1) ***Extent to which the residents of North Canton work in North Canton.***

According to 2000 Census figures, 1,780 of the 7,767 employed individuals in North Canton, or 23%, work at their place of residence. *See* Exhibit 2. This percentage compares favorably with other independent communities. *See, e.g., Albemarle and Indian Trail, North Carolina*, 16 FCC Rcd 13876 (2001), *application for review pending* (11.3% of working-age residents worked in community); *Coolidge and Gilbert, Arizona*, 11 FCC Rcd 3610 (1996) (13% of Gilbert's working population actually worked in Gilbert).

(2) ***Newspapers and other media that cover North Canton's local needs and***

***interests.*** *Our Town North Canton* is a monthly publication that covers the local needs and interests of North Canton. It is published in North Canton and approximately 5300 residents and businesses of North Canton subscribe. *Our Town North Canton* regularly features articles on local government, local business, local sports, local entertainment, and local community events. *See* Exhibit 2.

(3) ***Community leaders and residents perceive North Canton as being***

***separate from Canton.*** The City of North Canton was first recognized as a political entity in 1831 when a plat was recorded as New Berlin. It was established by the Pennsylvania Dutch, and the City was known as New Berlin until 1918 when the name was changed to North Canton. In 1961 the City of North Canton was incorporated and has since operated as a municipal corporation. The City was a trading center for much of the 1800s, and in 1873 the Hoover family migrated to North Canton and establish the Hoover Company. The Hoover Company originally manufactured leather products, but in 1919 Hoover began to manufacture vacuums. By 1922, Hoover was the world's

largest manufacturer of vacuums. North Canton has been home to the Hoover Company, now part of Maytag, since 1873. Tom Rice, the Mayor of North Canton, describes North Canton as “a proud and prosperous community”, a community “with government and schools that are considered among the best.” *See Exhibit 2.*

(4) *North Canton has its own local government and elected officials.* North Canton operates independently of any other government and is run by a Mayor and City Council. All legislative powers of North Canton are vested in the Council, which is composed of seven members. One member is elected from each of the four wards that comprise North Canton, and three members are elected at large by the citizens of North Canton. The term of each council member is two years. The Council generally meets for working sessions on the first and third Monday of each month, and regular council meetings are generally on the second and fourth Monday of each month. All council meetings are open to the residents of North Canton and the general public. *See Exhibit 2.*

The Mayor establishes the Office of Administration and appoints the Director of Administration. The Mayor and Director are responsible for the administration of the affairs of North Canton. The Director appoints, subject to the Mayor’s approval, the managers of North Canton’s administrative departments. These departments include, the Department of Public Safety and the Department of Service. The Department of Public Safety consists of the Police, Fire, and EMS departments. The Department of Service consists of the Street, Water Distribution, Water Treatment, Park, Recreation, Engineering, Zoning, and Permit departments. In addition to these departments, North

Canton has a Planning Commission and a Zoning and Building Standards Board of Appeals. *See Exhibit 2.*

(5) *North Canton has three zip codes.* The zip codes assigned to North Canton are 44799, 44720, and 44709, and the U.S. Postal Service operates two offices in North Canton. While North Canton does not have a separate telephone directory, phone numbers for the City of North Canton are listed on the City of North Canton website, <[www.northcantonohio.com](http://www.northcantonohio.com)>, and phone numbers for businesses in North Canton are listed on the North Canton Chamber of Commerce website, <[www.northcantonchamber.org](http://www.northcantonchamber.org)>. *See Exhibit 2.*

(6) *North Canton has its own commercial establishments and health facilities.* North Canton is home to a variety of businesses and commercial establishments. The North Canton Chamber of Commerce provides a listing of businesses located in North Canton and serving the community of North Canton. As discussed above, the Hoover Company and a number of other large businesses including, Diebold, Inc. the leading manufacturer of ATM machines are located in North Canton. A number of local businesses identify with the community by using “North Canton” in their name, including Best Western North Canton, Fairways of North Canton, Kindermusic of North Canton, North Canton Cleaners, North Canton Collision, North Canton Heating and Cooling, North Canton Repair Shop, and North Canton Veterinary Clinic. Other North Canton retail and commercial businesses include Acme Fresh Market, Bank One, Beggs RV Center, BW-3 Grill and Pub, Cain Toyota BMW, Capital Fire Protection, National City Bank, Nancy’s Paperbacks, New Wireless, Noah’s Bank, State Farm Insurance, Sun Printing, Sylvester’s Grill, and Willis Pontiac. *See Exhibit 2.*

A number of health care providers are located in North Canton. The North Canton Health Center provides hospital services to the residents of North Canton. The Windsor Medical Center provides both long and short term care through assisted living programs to the residents of North Canton. North Canton is also home to a number of sole practitioners and group medical service providers. *See Exhibit 2.*

North Canton is also home to a number of religious and community organizations, including Firestone Road Baptist Church, Trinity Brethren Church, Saint Paul's Catholic Church, Church of Christ, Holy Cross Lutheran Church, North Canton Lion's Club, North Canton Rotary Club, North Canton Heritage Society, the Girl Scouts, and the North Canton Jaycees. *See Exhibit 2.*

**(7) *North Canton is a separate and distinct advertising market from Canton.*** *Our Town North Canton* provides the businesses of North Canton with a place to advertise to the residents of North Canton without relying on the Canton advertising market. *See Exhibit 2.*

**(8) *North Canton has its own schools, library, police protection and fire protection.*** The North Canton City School District administers the following schools for the residents of North Canton: Hoover High School, North Canton Middle School, Clearmount Elementary School, Greentown Elementary School, Northwood Elementary, Orchard Hill Elementary, and Mary L. Evans Kindergarten. Walsh University, located in North Canton, is a private university with an enrollment of approximately 1600 students. *See Exhibit 2.*

The North Canton Public Library is located on North Main Street in North Canton. The library is open seven days a week and in addition to providing the

community of North Canton with traditional library services, its Community Relations Office holds educational classes for the residents of North Canton. The classes held in February included, medical information on the internet, anger management, book chat, surviving the mutual fund scandal, and learn to knit. *See Exhibit 2.*

The North Canton Police Department has 25 full-time officers. The Department is located at city hall, and it maintains its own dispatch communication center consisting of six full-time dispatchers. The police department also provides crossing guard services to North Canton schools and members of the department regularly patrol the city on bike. The North Canton Fire Department has approximately 35 part-time personnel. The fire department is responsible for fire suppression, medical emergency service and life support, rescue, and fire prevention activities within the City of North Canton. *See Exhibit 2.*

4. North Canton is clearly independent of Canton and therefore deserving of a first local service. As demonstrated above, North Canton satisfies all of the independent community indicia required by *Tuck*.

### **III. CONCLUSION**

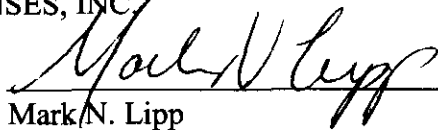

For the foregoing reasons the Commission should delete Channel 269A at Dover, Ohio and allot Channel 269A at North Canton, Ohio as that community's first local service. Clear Channel reiterates that if the Commission allots Channel 269A at North Canton as that community's first local service, it will file an application for Channel 269A at North Canton and will construct the facilities as authorized. In addition, the Commission should delete the city of New Philadelphia from WJER(AM)'s dual city license in order to ensure that Dover maintains

local service. The Commission should promptly issue a Notice of Proposed Rule Making as described herein.

Respectfully submitted,

CLEAR CHANNEL BROADCASTING  
LICENSES, INC.

## TECHNICAL EXHIBIT

TECHNICAL EXHIBIT

PETITION FOR RULE MAKING  
TO AMEND THE FM TABLE OF ALLOTMENTS

DOVER, OHIO  
NORTH CANTON, OHIO

Technical Narrative

This technical narrative and accompanying Figures have been prepared on behalf of station WJER-FM, Dover, Ohio, in support of a Petition for Rule Making to amend 47 C.F.R. Section 73.202(b) to reallocate channel 269A at Dover, Ohio to channel 269A at North Canton, Ohio, and to modify the license of WJER-FM to specify operations on channel 269A at North Canton, Ohio.

As the requested change is mutually exclusive with the channel's current allotment, Petitioner invokes the provisions of 47 C.F.R. Section 1.420(i).

The following is a summary of the merits of this reallocation proposal:

- The community of North Canton, Ohio (2000 Census population 16,381 persons) will be provided with its first local aural transmission service.
- The community of Dover, Ohio (2000 Census population 12,210 persons) will continue to have local aural service from full time radio station WJER (AM).
- The proposed channel 269A allotment site at North Canton, Ohio satisfies the Commission's allocations spacing rules for a fully spaced, full 6 KW Class A facility<sup>1</sup>.

---

<sup>1</sup> The proposed allotment reference coordinates are 40° 48' 30" North, 81° 23' 31" West. See this Exhibit under the heading "Compliance With FCC Rules" for details on allocations considerations with respect to this site. Also see Figure 1 accompanying this Exhibit for the allocations spacing study. The current allotment only supports a 3 kW class A facility due to the distance of that allotment from station WNKO (FM).

- The 60 dBu gain area associated with the proposed reallocation of channel 269A to North Canton, Ohio will encompass 479,475 persons, while the 60 dBu loss area will encompass 77,058 persons, for a net gain of 402,417 additional persons served within the WJER-FM 60 dBu service contour<sup>2</sup>.
- The channel 269A 60 dBu loss area is well served by a number of radio services<sup>3</sup>.
- WJER-FM is currently limited to 3 KW E.R.P. due to a short spacing with WNKO (FM) channel 269A at Newark, Ohio. This proposal eliminates that short spacing, enabling WJER-FM to achieve full 6 KW class A facilities.

---

<sup>2</sup> See Figure 2.

<sup>3</sup> See Figures 2 and 3

*Table of Figures Accompanying this Exhibit*

Figure 1	WJER-FM Channel 269A Allocations Spacing Study
Figure 2	WJER-FM Channel 269A 60 dBu Gain and Loss Areas, and depiction of Services to WJER-FM 60 dBu loss area
Figure 3	Tabulation of Services to WJER-FM 60 dBu loss area
Figure 4	WJER-FM 269A Present and Proposed 70 dBu Service

Proposed Change in the FM Table of Allotments

Dover, Ohio is located in Tuscarawas County, Ohio, and has a 2000 U.S. Census population of 12,210 persons. Under this proposal, Dover will continue to receive local aural radio service from full time standard broadcast station WJER.

North Canton, Ohio is located in Stark County, Ohio, and has a 2000 U.S. Census population of 16,381 persons. North Canton has no local FM or AM aural broadcast service and, therefore, Petitioner's proposal would bring a first local aural broadcast service to North Canton.

Accordingly, Petitioner requests modification of the FM allocation table as follows:

<u>Community</u>	<u>Present</u>	<u>Proposed</u>
Dover, OH	269A	-
North Canton, OH	-	269A

Compliance With FCC Rules

The attached *Figure 1* is a tabulation of required separations pertinent to use of channel 269A at North Canton, Ohio. The allotment reference site complies with the Commission's minimum distance separations contained in Section 73.207 of the FCC's rules to all existing, authorized and proposed stations and allotments as a full 6 KW Class A allotment, except for the existing channel 269A allotment at Dover, Ohio, for which this proposal is a mutually exclusive substitute.

Operation from the channel 269A reference site will provide the requisite city grade (70 dBu) signal to all of North Canton.<sup>4</sup> *Figure 4* is a map which was developed using the 2000 U.S. Census Topologically Integrated Geographic Encoding and Referencing (TIGER) Line files which depicts the city grade coverage (70 dBu) contours based on class A facilities (ERP 6 kW/HAAT 100 meters) at the proposed allotment site. As shown, all (100%) of North Canton is

---

<sup>4</sup> SEE *Figure 4* herein

located within the 70 dBu City Grade contour. North Canton is located 7.7 kilometers from the proposed WJER channel 269A allotment site.

WJER-FM is currently limited to 3 KW E.R.P. due to a short spacing with WNKO (FM) channel 269A at Newark, Ohio. This proposal eliminates that short spacing, and enables WJER-FM to achieve full 6 KW class A facilities.

#### Urbanized Area Considerations

The WJER-FM 269A 70 dBu contour currently encompasses no Urbanized areas. The proposed allotment site at North Canton will encompass 100% of the Canton Urbanized area<sup>5</sup>.

#### 60 dbu Gain and Loss Areas

There are currently 152,242 persons residing within the WJER-FM channel 269A 60 dBu contour. There will be 527,659 persons residing within the proposed WJER-FM 269A 60 dBu contour. 48,184 persons currently residing within the WJER-FM 60 dBu contour will continue to receive service under this proposal. 77,058 persons will lose service. 479,475 persons will gain new service within the proposed WJER-FM 60 dBu contour as a result of the proposed 269A operation at North Canton, for a net aggregate gain of 402,417 persons. See *Figure 2*.

The 60 dBu loss area related to the reallocation of channel 269A to North Canton is well served by many aural services. See *Figures 2 and 3*.

#### Coverage Contours

The FM predicted coverage contours were calculated in accordance with the provisions of 47 C.F.R. Section 73.313, except that, in accordance with current FCC practice, uniform terrain was assumed in all directions.

---

<sup>5</sup> SEE *Figure 4*.

### Population and Area

The population within the FM primary service contour (1 mV/m) was calculated using a computer program that utilizes the 2000 U.S. Census database of "population centroids". The program adds the populations of those U.S. Census designated areas whose centroid lies within each service area.

### Conclusion

Channel 269A can be reallocated from Dover, Ohio to channel 269A at North Canton, Ohio, in compliance with all applicable Commission rules. The community of North Canton, Ohio would be provided with a first local aural transmission service, and the community of Dover, Ohio will continue to have local aural service. No service will be lost in any underserved area<sup>6</sup> and no new underserved areas will be created as a result of this proposal. An existing short spacing to channel 269A at Newark, Ohio which precluded full 6 kW operation for WJER-FM, will be eliminated. Therefore, Petitioner requests the reallocation of channel 269A from Dover, Ohio to North Canton, Ohio, and the modification of the license of WJER-FM to specify operations on channel 269A at North Canton, Ohio be granted.

Respectfully submitted,

Stephen G. Davis  
Senior Vice President  
Clear Channel Broadcasting Licenses, Inc.

2625 South Memorial Drive, Suite A  
Tulsa, Oklahoma 74129  
(918) 664-4581

March 5, 2004

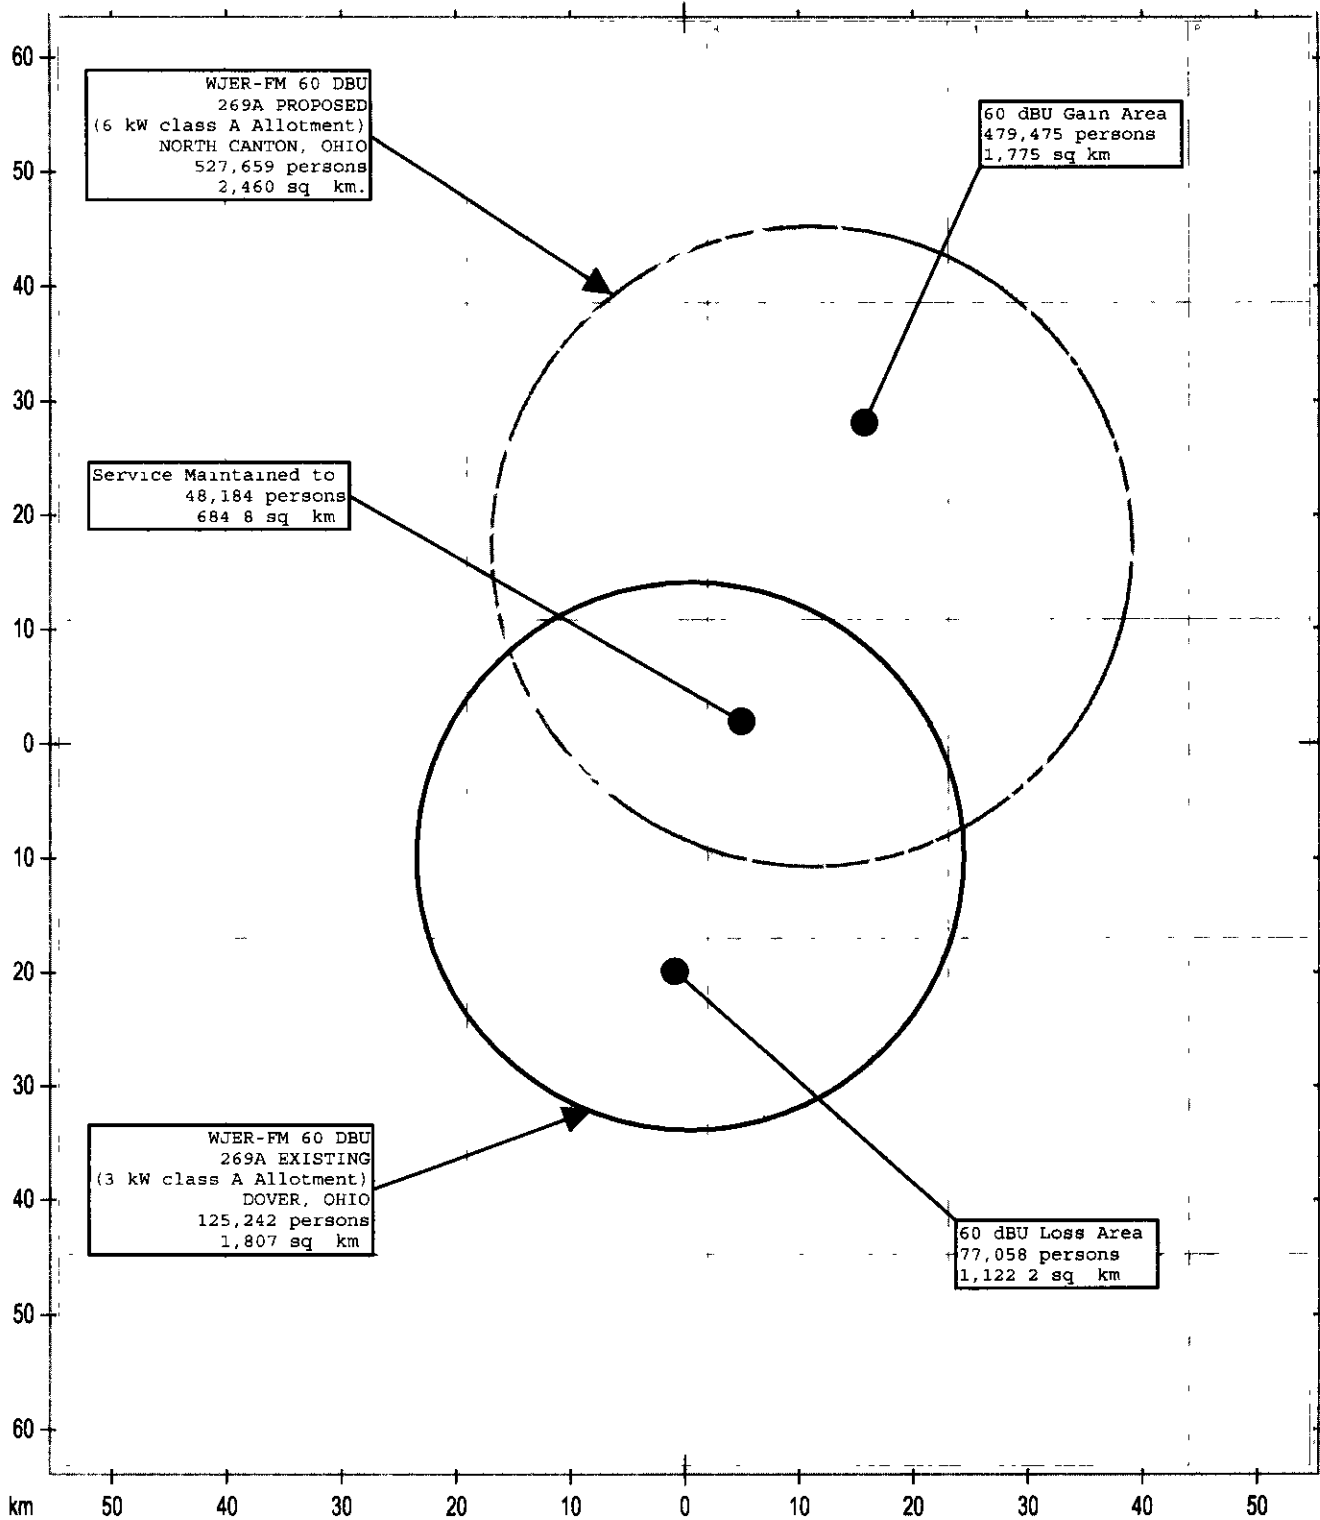

---

<sup>6</sup> Defined as an area receiving service from less than five aural broadcast services. In the case of this proposal, the 60 dBu loss areas will continue to receive 60 dBu service from multiple sources, local and distant. See Figures 2 and 3.
